

# C1 PRO

# WYBOT

## INTELLIGENT CORDLESS POOL CLEANERS

### POWER

The Wybot C1 Pro boasts a compact, ergonomic design that makes it easy to handle. Its powerful motor and advanced filtration system make it an ideal choice for those looking for minimum maintenance with optimum results.

### AUTONOMY

With up to 2.5 hours of autonomy, it keeps your pool clean with 2-hour or 4 x 30-minute cycles.

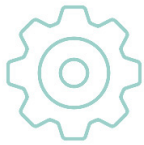

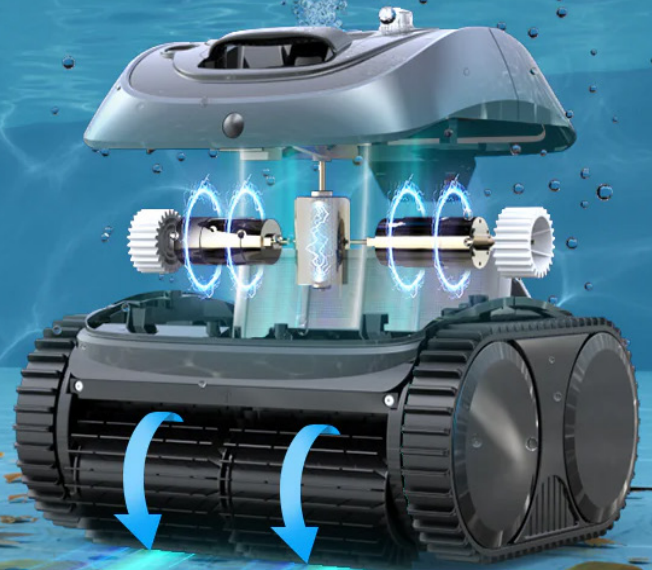

### CLEANING MODES

Four cleaning modes are pre-configured to suit your needs, easily selectable via the app for bottom, walls, water line or full cleaning. The 4 cleaning modes are also available via buttons on the robot's bonnet

## Effortless Cleaning

Upgraded motor for enhanced suction. Dual scrubbing brushes efficiently remove debris from floor, walls, and waterline, achieving a deep clean in just 150 minutes.
