

m2 Vision

INTELLIGENT CORDLESS POOL CLEANERS

POWER

With its compact design and 120W of power, the M2 VISION cleaner will leave your pool in perfect condition.

AUTONOMY

The battery is replaceable and has a handy level indicator so you can check its condition at any time .

INTELLIGENT NAVIGATION

The Wybot M2 VISION robot features an advanced sensor system for complete pool coverage, with no missed areas. Visual-based dirt identification / 8 cleaning modes / brushless motor

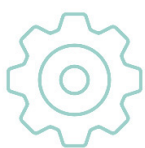

Artificial Intelligence Learning

Dirt-Hunting Mode

Actively searches out dirt and debris on the pool floor

Artificial Intelligence Learning

Recognises more dirt, identifies and cleans faster than regular, random algorithm-based cleaners

TECHNICAL SPECIFICATIONS

- Bottom, sides and waterline use
- In-ground pools up to 200 m²
- Power 120W/ Suction rate 15m³/h
- 10,000 mAh replaceable battery
- Double filtration 180 µm + ultrafine filter 40ppi
- 11Kg - 46 x 42 x 23cm
- Gyroscope, infrared, camera
- Operating time 5h00
- Charging time 3h00
