

S1

WYBOT

INTELLIGENT CORDLESS POOL CLEANERS

POWER

The Wybot S1 robot, with its reduced size and weight, powerful suction and optimum battery life, cleans all areas of the pool with agility.

AUTONOMY

Its 3-hour autonomy means you can keep your pool clean with fewer interventions. Fast charge in 2.5 hours

INTELLIGENT NAVIGATION

The various intelligent modes (6) offer adaptability to different cleaning needs.

- Advanced WYBOT application - 6 cleaning modes and custom scheduling
- Intelligent path planning - Intelligent navigation ensures thorough, systematic cleaning
- Practical automatic parking technology - Easy to recover after cleaning
